

May the people know the truth and be set free and let them know the power of putting their whole trust in You God. In Jesus' name, Amen

Clinic report on June 2011.

Faith And Truth Do Not Depend On How We Feel

We have seen people testify about their healing, going home in great joy. Yet some time later, they are back, filled with doubt caused by well-meaning people and needing extra encouragement. Although healing may sometimes be progressive, our faith is not to be based on feelings but on the word of God. We have a part to play in maintaining our healing.

There is **great power in the spoken word**. How did God create the earth? **By the word of His mouth**.

This June 2011, we received 454 out-patients, adult 204 and children 250.

Mrs. Phai is a village 2 said "I am very happy with Sen Soursdey Medical Clinic working as a parents, all the clinic staffs are friendly with the out-patient as like us. My granddaughter have a flu and diarrhea, I used to come here when my granddaughter sick."

This baby girl is getting skin rash allergy and her mum bring her to see a doctor and one week later after she took medicine now she is better. Thank God very much for his mercy and kindness to the poor people.

All these medicine preparing and taking control carefully by clinic staff in the purpose of distributing to the out-patients after they come to see a doctor and receive their prescription drugs.

The volunteer examining the out-patient commiseratively by using digital blood tester in order to testing blood pressure.

Please pray for our ministries here as below:

- 1. For clinic and church staff in Cambodia.**
- 2. For one laptop and camera digital for clinic project use.**
- 3. For Tunle Sap Medical Clinic project please God provide and bless this project to have fund for running it.**
- 4. For one more prayer please pray for Ps. Rathana school fee on Master degree.**
